Solutions Architect | TD SYNNEX

Agenda

- Agents 101
- Agent Builder
- M365 Copilot and pre-built agents
- Copilot Studio
- Licensing
- Choosing an agent platform
- Q&A

Goals

UNDERSTANDING OF AGENTS

POSITIONING THE ENTRY POINT

ARTICULATE MSFT OFFERINGS

Journey to the Frontier Firm

Phase 1

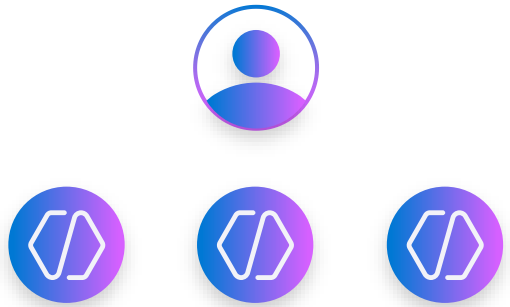

Human with assistant

Every employee has an AI assistant that helps them work better and faster

Phase 2

Human-led agents

Agents join teams as "digital colleagues," taking on specific tasks at human direction

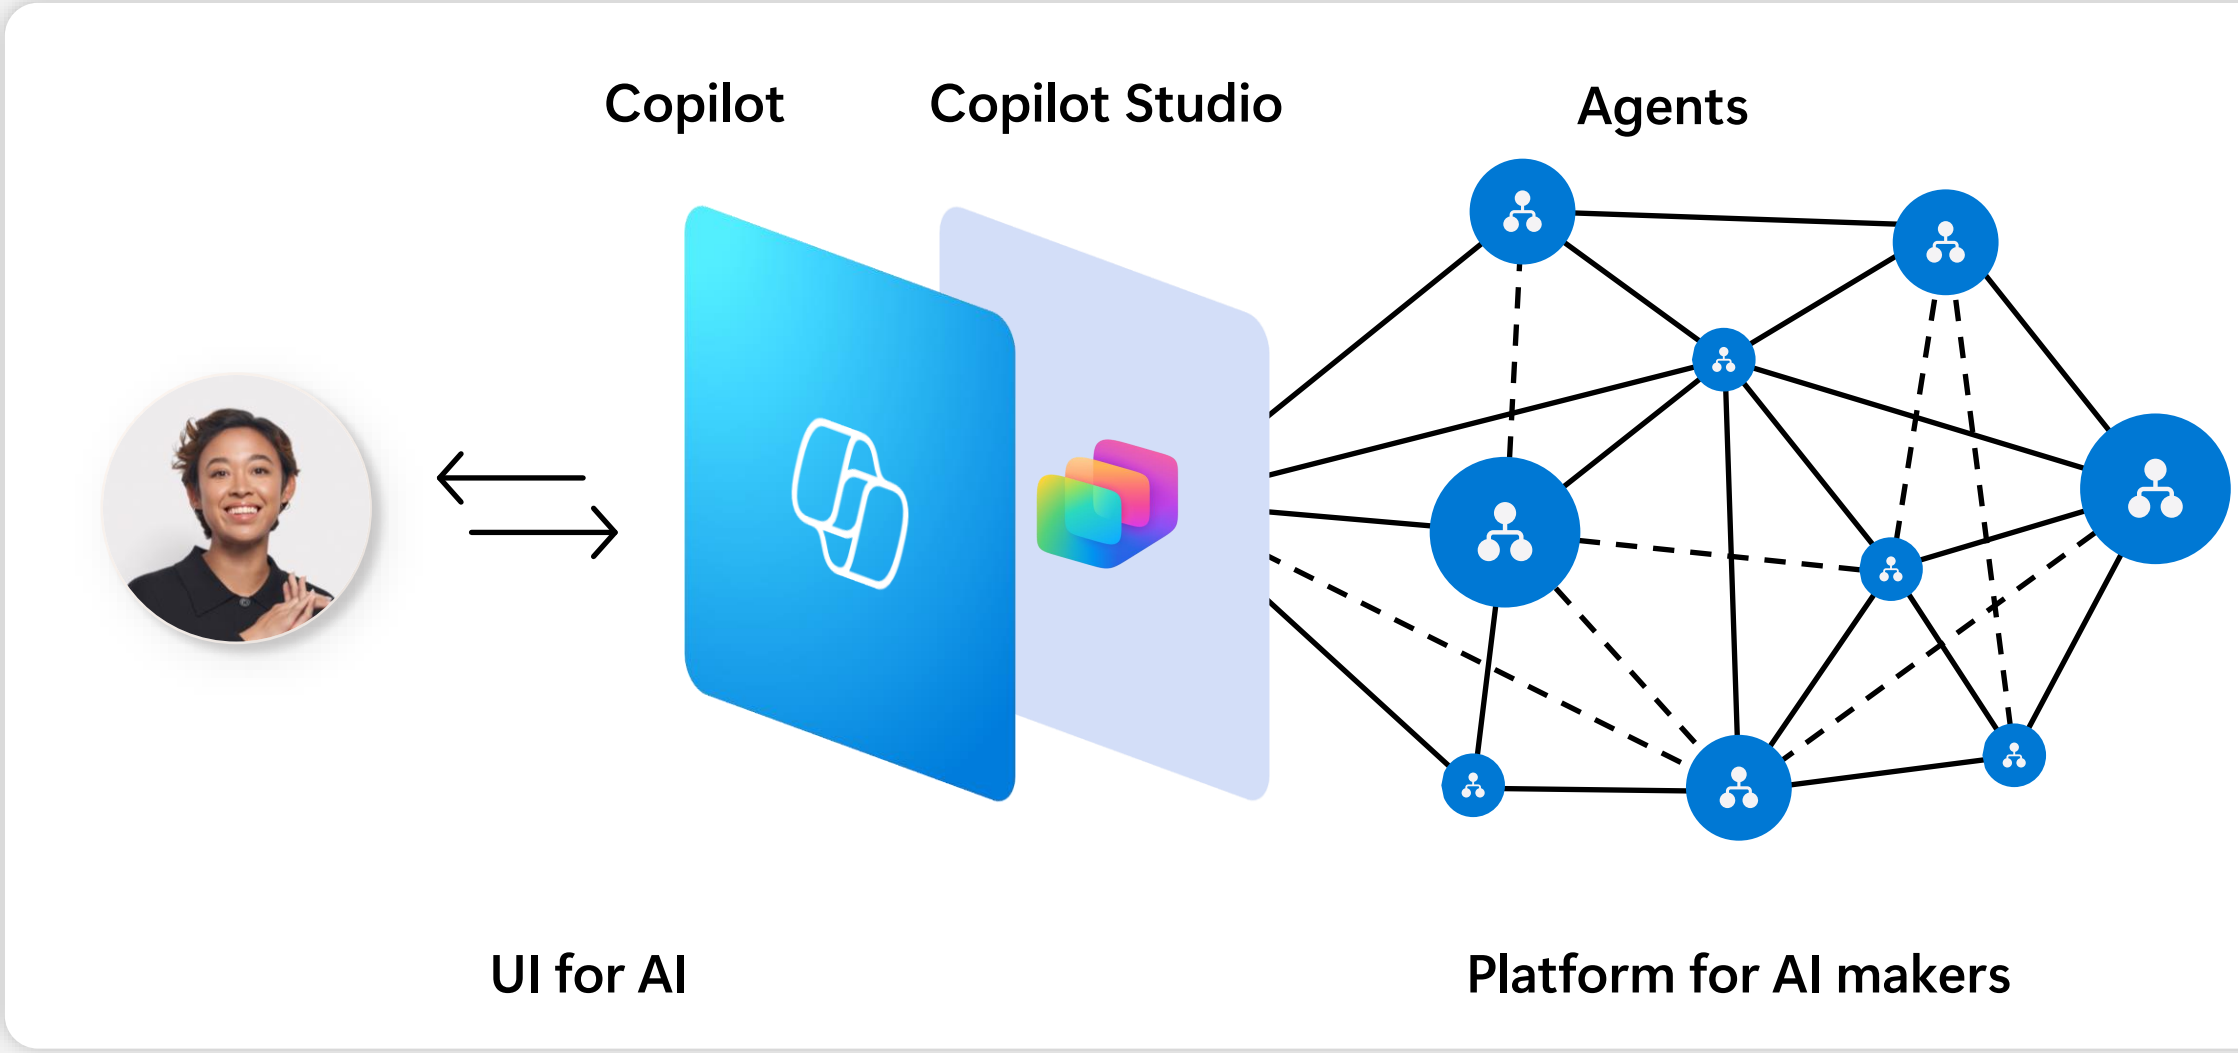

Phase 3

Human-led, agent-operated

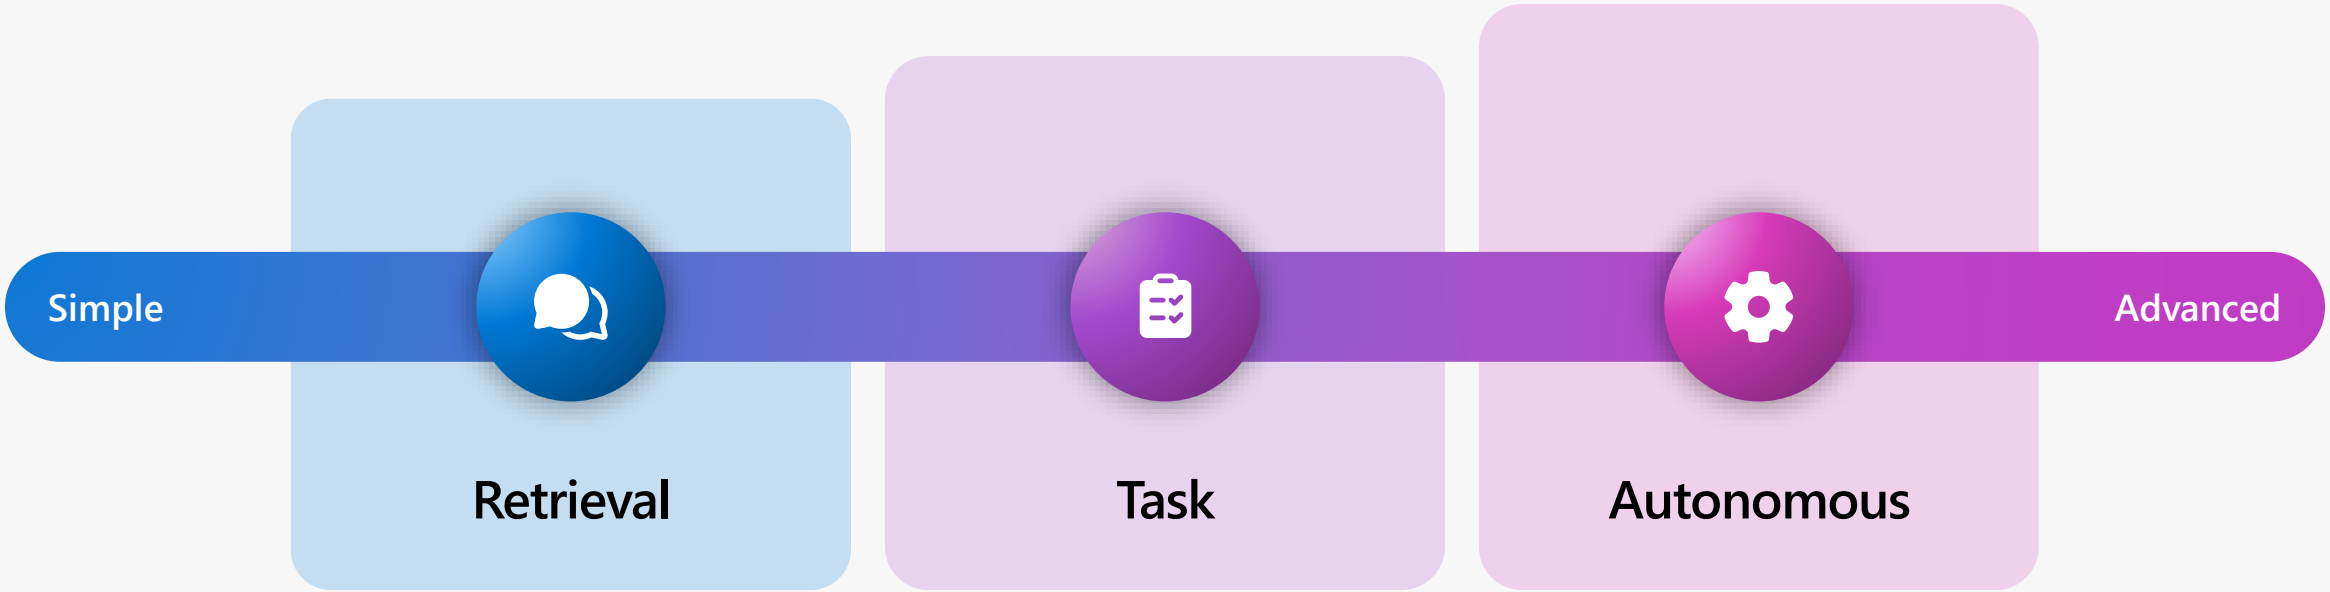

Humans set direction and agents run entire business processes and workflows, checking in as needed

Empower every user with a Copilot and every business process with an agent

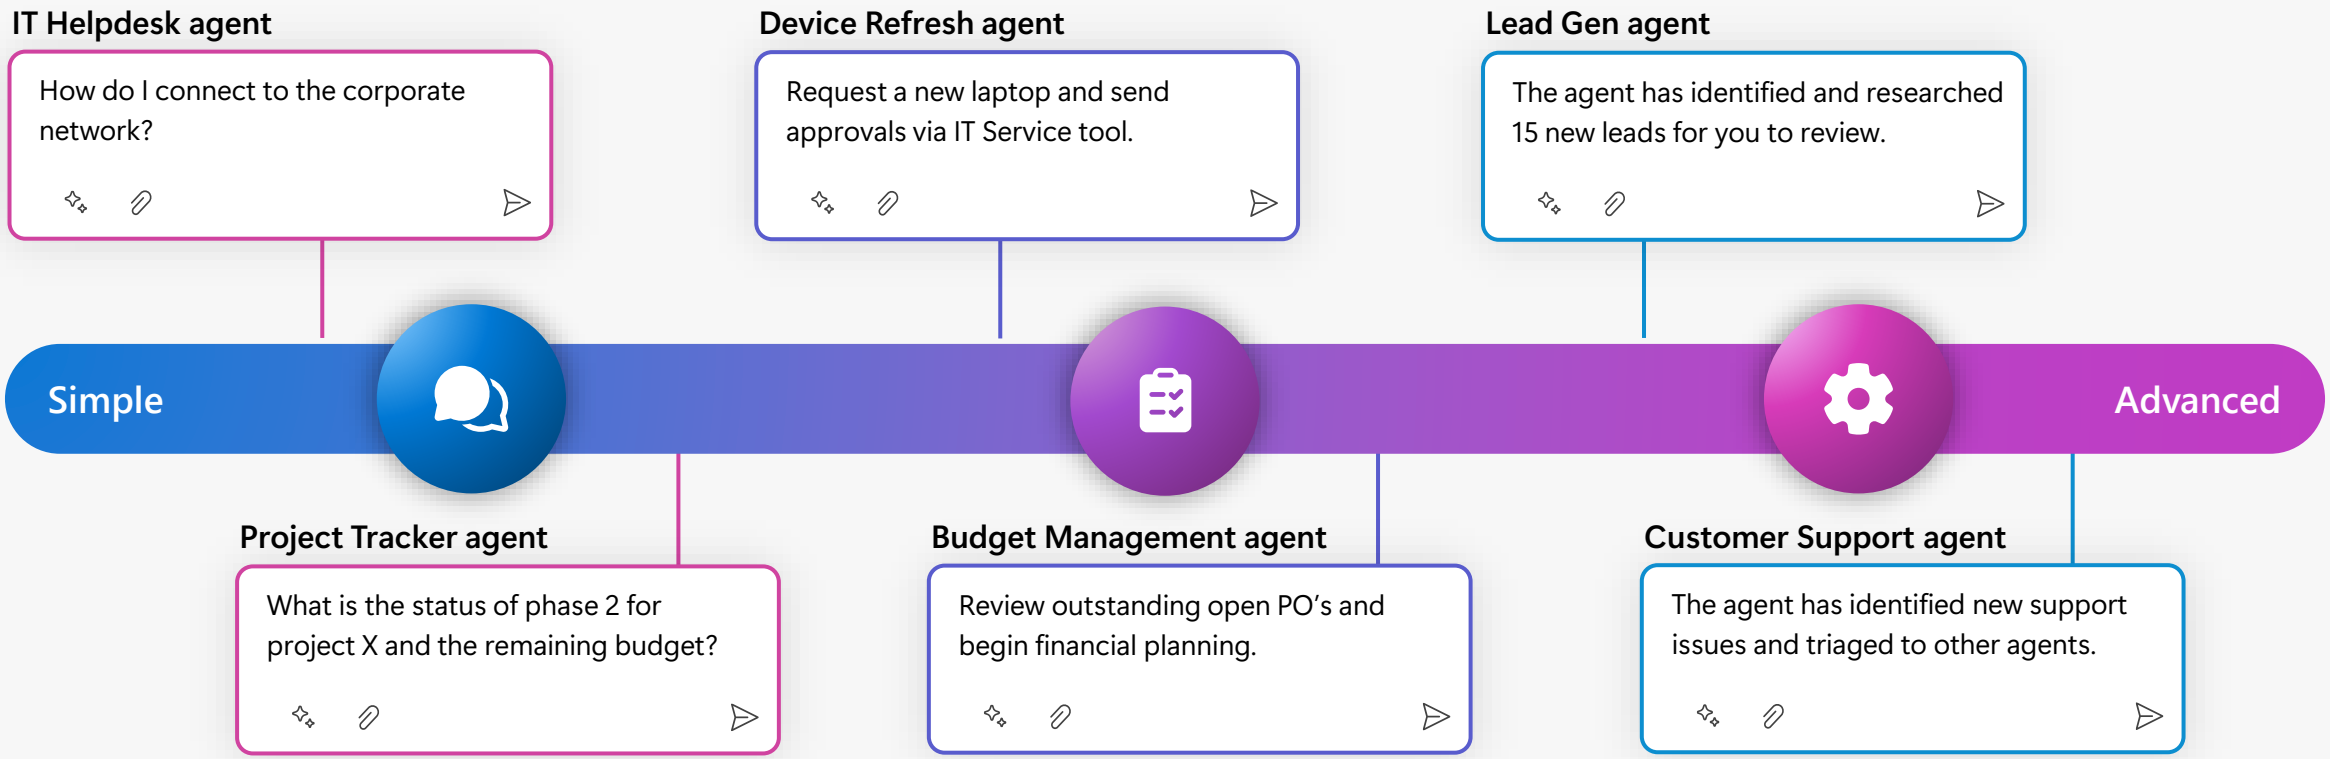

What are agents?

Agents use AI to automate and execute business processes, working alongside or on behalf of a person, team or organization

Agents vary complexity and capabilities depending on your need

Explore a continuum of solutions

Use Agent Builder in Copilot Chat to get started

Agent Builder enables end users to build agents to boost personal productivity and reduce time spent on manual and repetitive processes

Build simple, declarative agents quickly using natural language, or use an existing template to get started

Tip !

Agents built with Agent Builder are best suited for individual employees or small teams. For organization wide agents handling business critical processes, use Copilot Studio to gain access to the full spectrum of capabilities

Examples of templates in Agent Builder

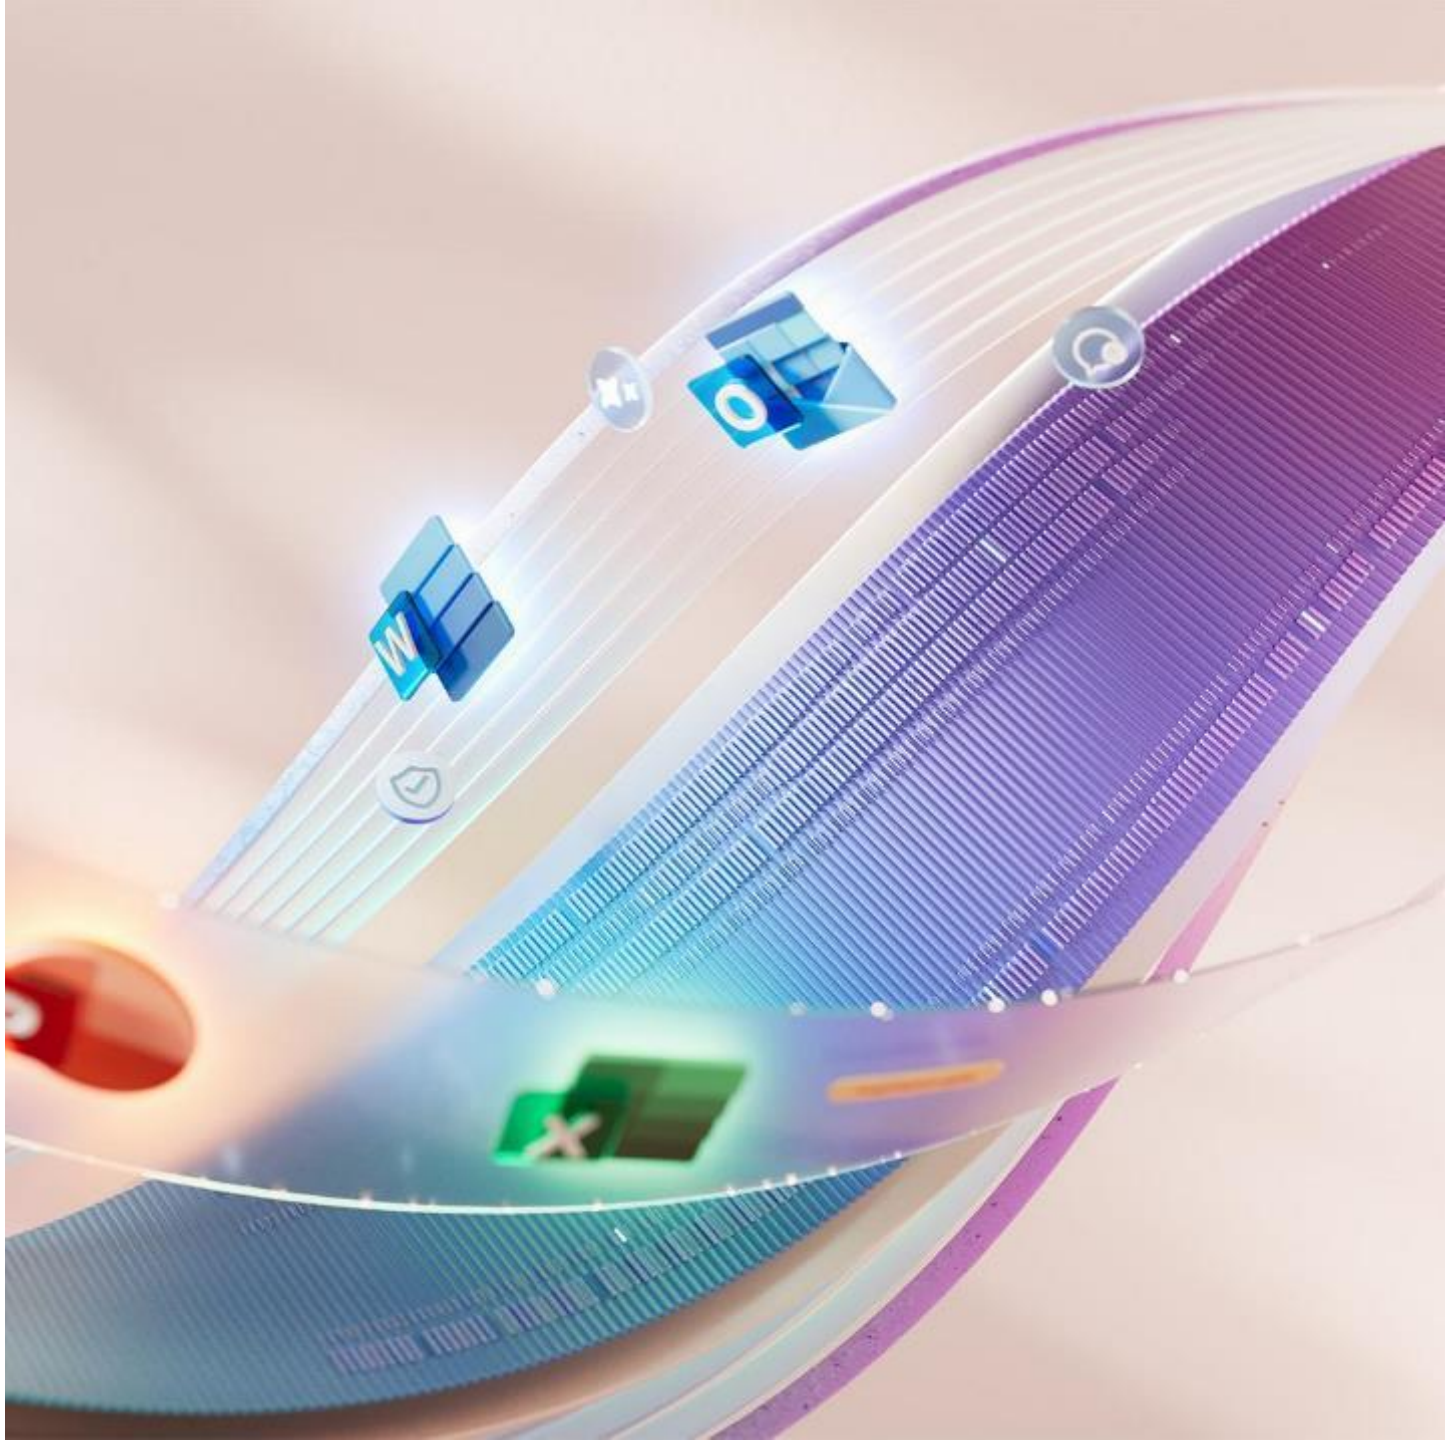

Use templates to help users get started with agents

Agent Name	Description
Writing Coach	Provides detailed feedback on writing. Helps change the tone of messages, translates text, and assists in writing tasks
Idea Coach	Helps users brainstorm and organize ideas
Prompt Coach	Assists users in creating effective well-structured prompts for Copilot
Career Coach	Provides personalized career development suggestions including role understanding, skill gap analysis, learning opportunities, and career transition plans
Learning Coach	Helps users understand complex topics by breaking them down into simple, intermediate, and advanced summaries. Provides guided practice and learning plans
Meeting Coach	Helps meeting organizers create and ensure meetings are productive, engaging and well organized
Customer Insights Assistant	Designed to help your team get to know your customers by providing relevant information and insights
Interview Questions Assistant	Provides professional guidance in question generation tailored to specific job roles, or industries
Quiz Tutor	Creates interactive, fun, and engaging quizzes based on training documentation. It provides coaching on answers, praises correct answers, and offers explanations for incorrect ones
Scrum Assistant	Supports scrum team members in facilitating scrum ceremonies, backlog management, and continuous improvement

Copilot Studio

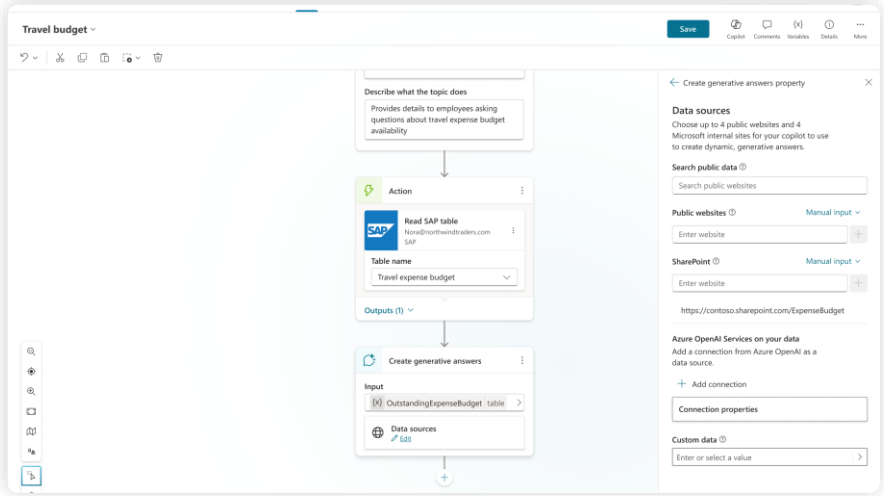

Copilot Studio is the platform for AI makers.

For end users

Agent Builder

For makers

Copilot Studio

Customize your agent

Easily tailor your agent's building blocks to meet your unique business needs in a comprehensive, end-to-end studio

Building blocks

Knowledge

Existing enterprise data in or outside of M365 that you agent can query

Actions

Tasks and processes your agent can perform across LOB services/apps

Logic

Defined conversation paths for your agent to follow when triggered

Channels

Where and how your end users engage with your agent

Knowledge

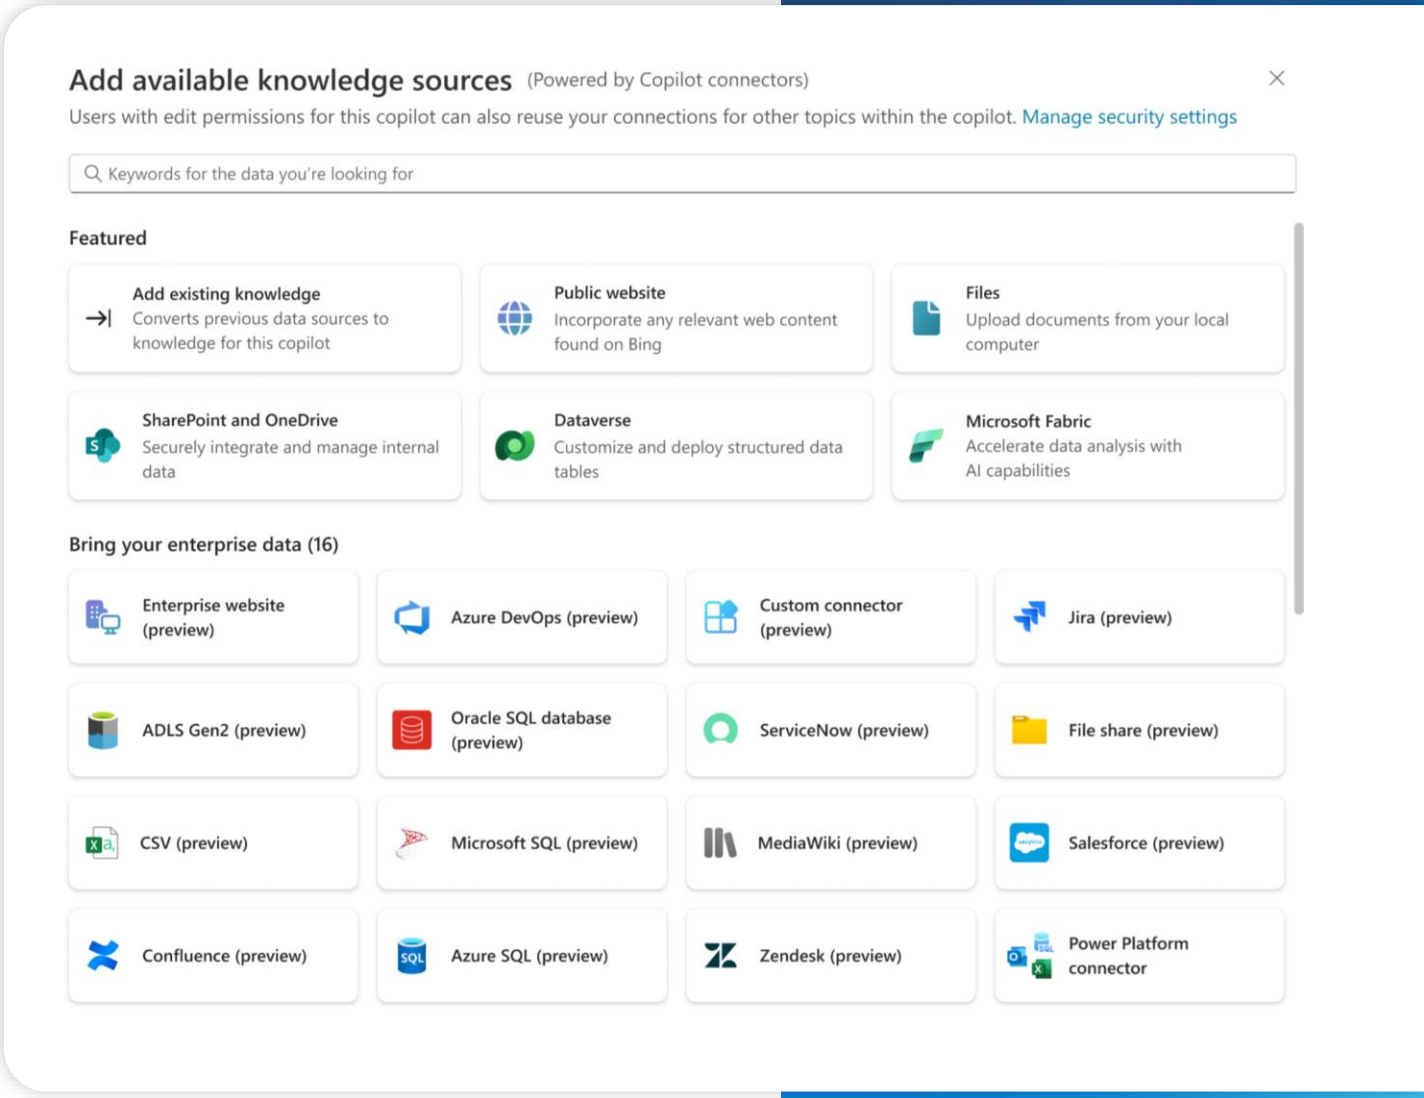

Add your **public and enterprise data** sources using agent connectors.

Your agent will be able to **dynamically generate multi-turn answers** in real time using your enterprise data.

Allows you to create an **immediately useful** agent.

Supported data sources include:

- Public websites
- Dataverse
- File uploads
- SharePoint/OneDrive
- Microsoft Fabric (coming soon)
- Microsoft Graph

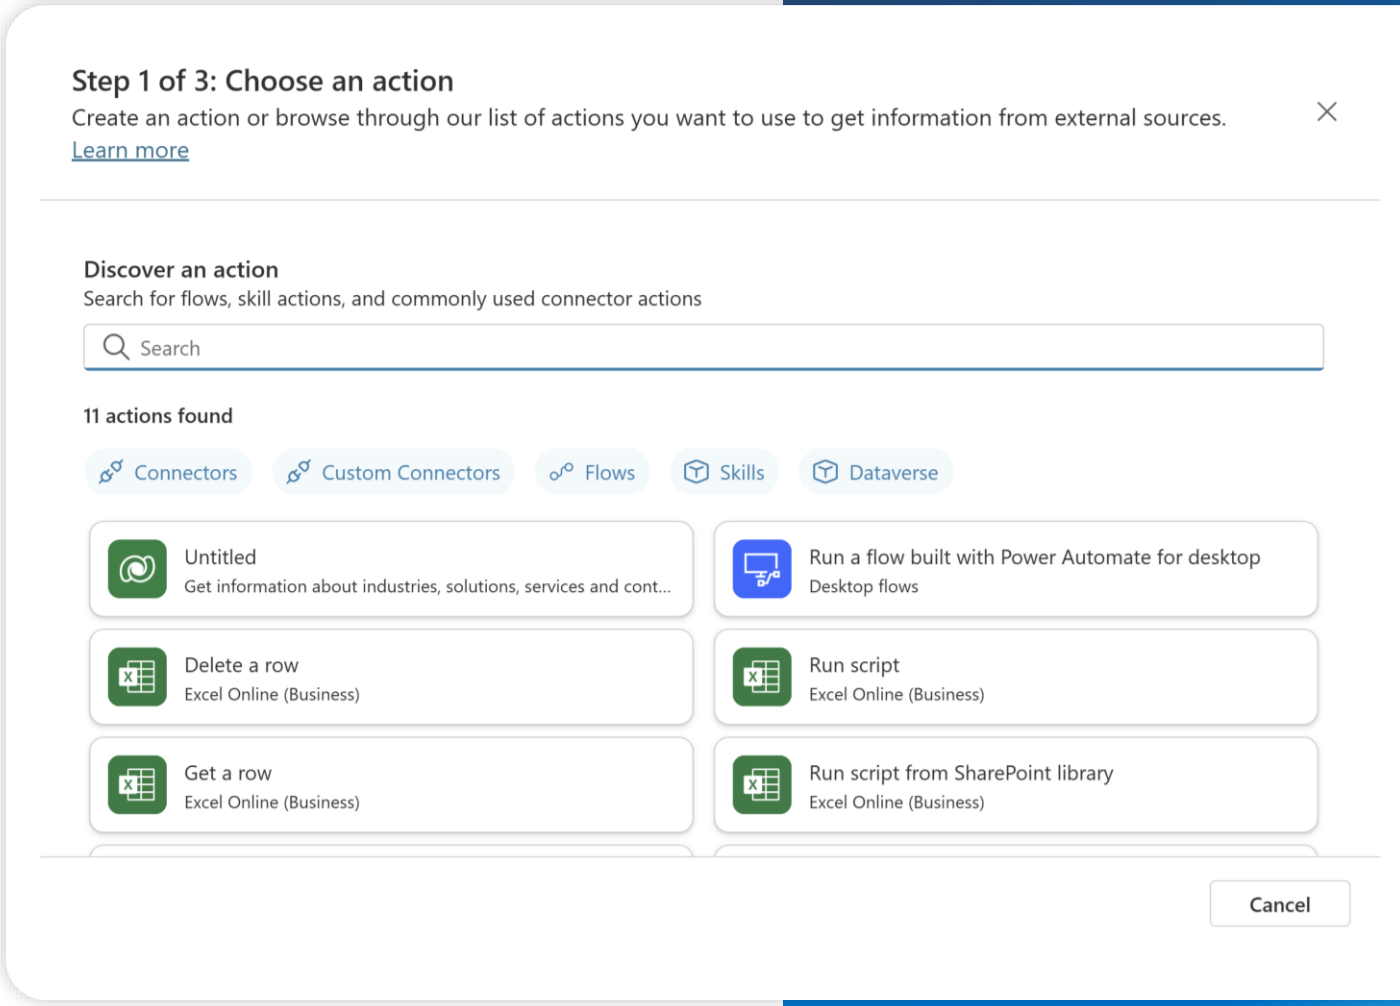

Actions

Easily connect to your key line of business systems.

Enable your agent to automate your business processes and complete tasks.

Tell your agent when to execute an action by adding autonomous triggers.

Types of actions	
Prebuilt connectors	Choose from 1400+ prebuilt Power Platform connectors to popular data sources and apps
Custom connectors	Create a custom connector for any publicly available API
Flows	Bring in automated workflows built using Power Automate
Prompts	Provide custom instructions to the GPT model using AI Builder
Skills	Add a bot built using Azure Bot Framework as a skill

1400+

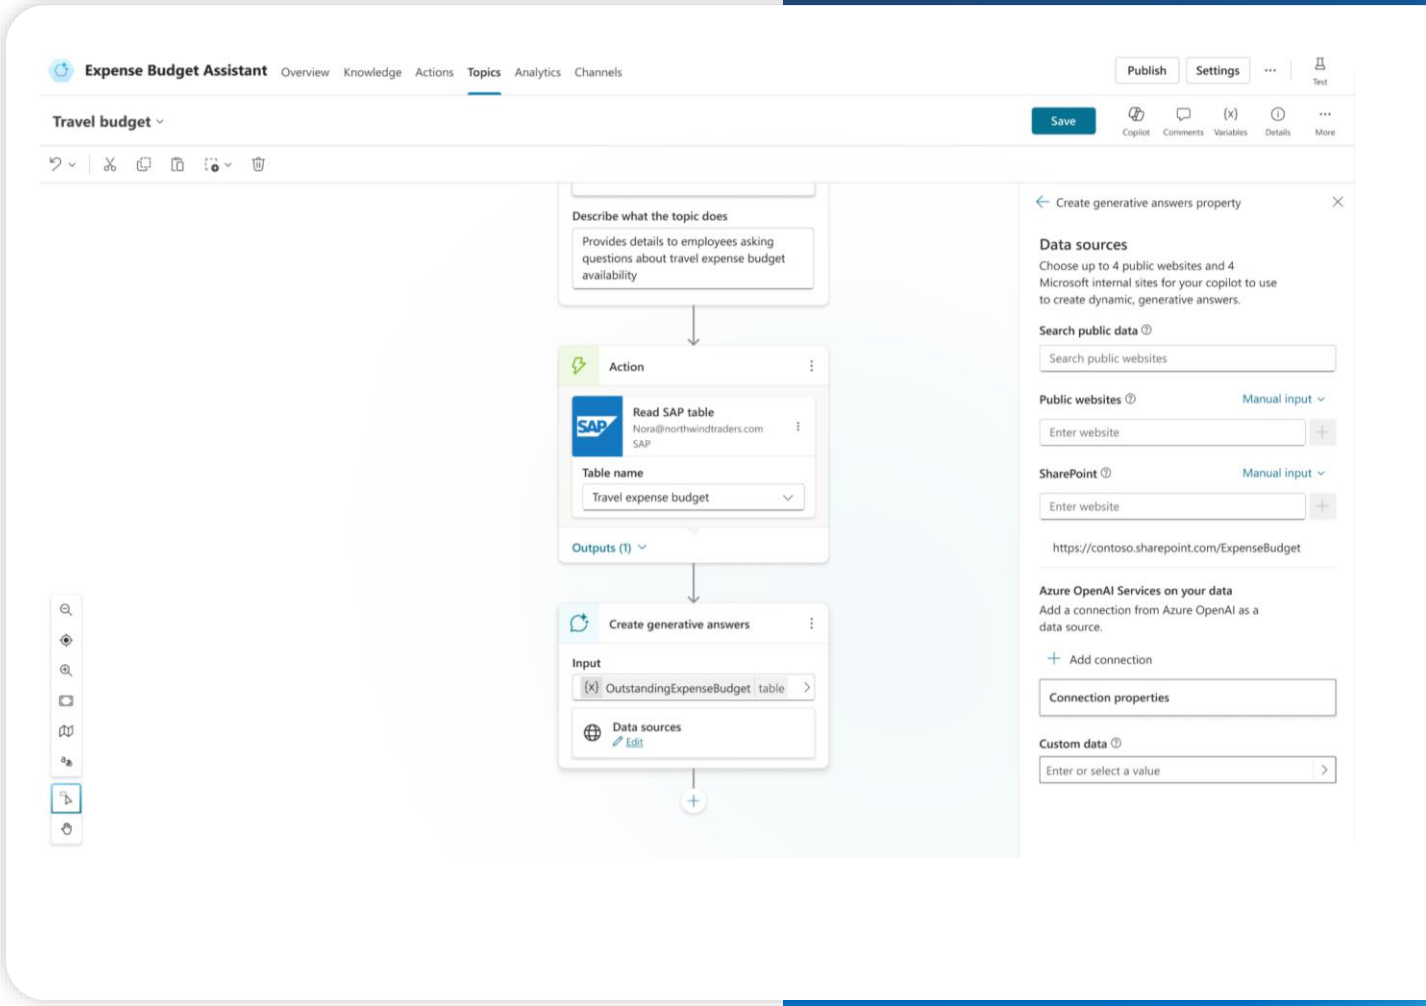

Logic

Have **complete control over critical scenarios** by designing specific step-by step topics.

Enable your agent to **automatically select the most appropriate action or topic** to respond to a user using generative AI.

Easily mix and manage both **generative and custom dialog** in one system.

Connect to your contact center so your agent can escalate and hand off the conversation with full context to a live human agent.

Channels

Publish and deploy to your channels of choice with a single click.

Add your agent to a custom app built with Power Apps or a custom website built with Power Pages.

You can access even more channels through ISVs, including:

WeChat

WhatsApp through Twilio

Google's Business Messages

Apple Messages for Business

Agent 365

Work smarter, together with Agent 365. **Build agents as members of your team** in Copilot Studio that securely leverage Microsoft 365 apps and data.

Copilot Studio with Agent 365 **enhances data protection and simplifies compliance**—so you can scale AI confidently.

Manage all AI agents in one view with Agent 365, applying policies and tracking performance for safe AI transformation.

Purchase Construct	License subscription	PAYG meter (monthly in arrears)	License subscription (annual upfront)	One-time purchase (annual upfront)	One-time purchase (annual upfront)
Where to Purchase	Purchased in MAC	Transacted in Azure Portal[3]	Purchased in MAC	Transacted in Azure Portal[3]	Transacted in Azure Portal [3]
MACC Eligibility	Not Eligible	Eligible[4]	Not Eligible	Eligible[4]	Eligible[4]
Copilot Credits	Included in M365 Copilot[5]	Yes	Yes	Yes	Yes

[1] Microsoft reserves the right to update Copilot Credit eligible products.
[2] 25,000 Copilot Credits per pack.
[3] Requires an Azure subscription
[4] Does not extend to Azure Prepayment
[5] Only applicable when M365 Copilot licensed users use agents deployed in Business to Employee or internal scenarios where user's Entra ID can be authenticated.

Choose your path to build agents

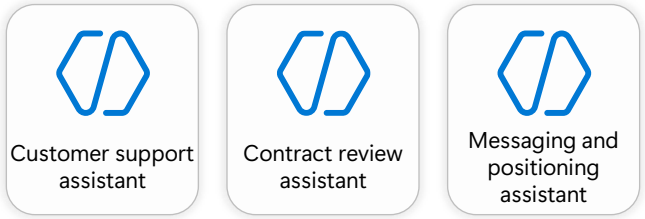

1. Start with a pre-built agent

Drive immediate impact

Pick from a variety of pre-built agents designed to automate common business tasks in the Agent Store or Microsoft 365 apps

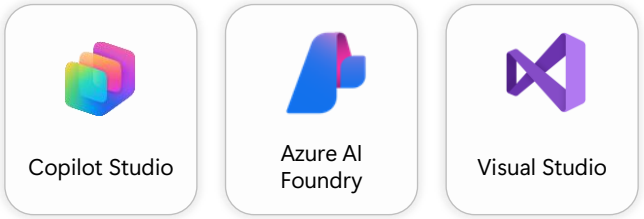

2. Use Agent Builder

Boost personal productivity

Users can build simple declarative agents using Agent Builder in Copilot Chat to boost personal productivity and reduce manual processes

3. Build custom agents

Scale across the organization

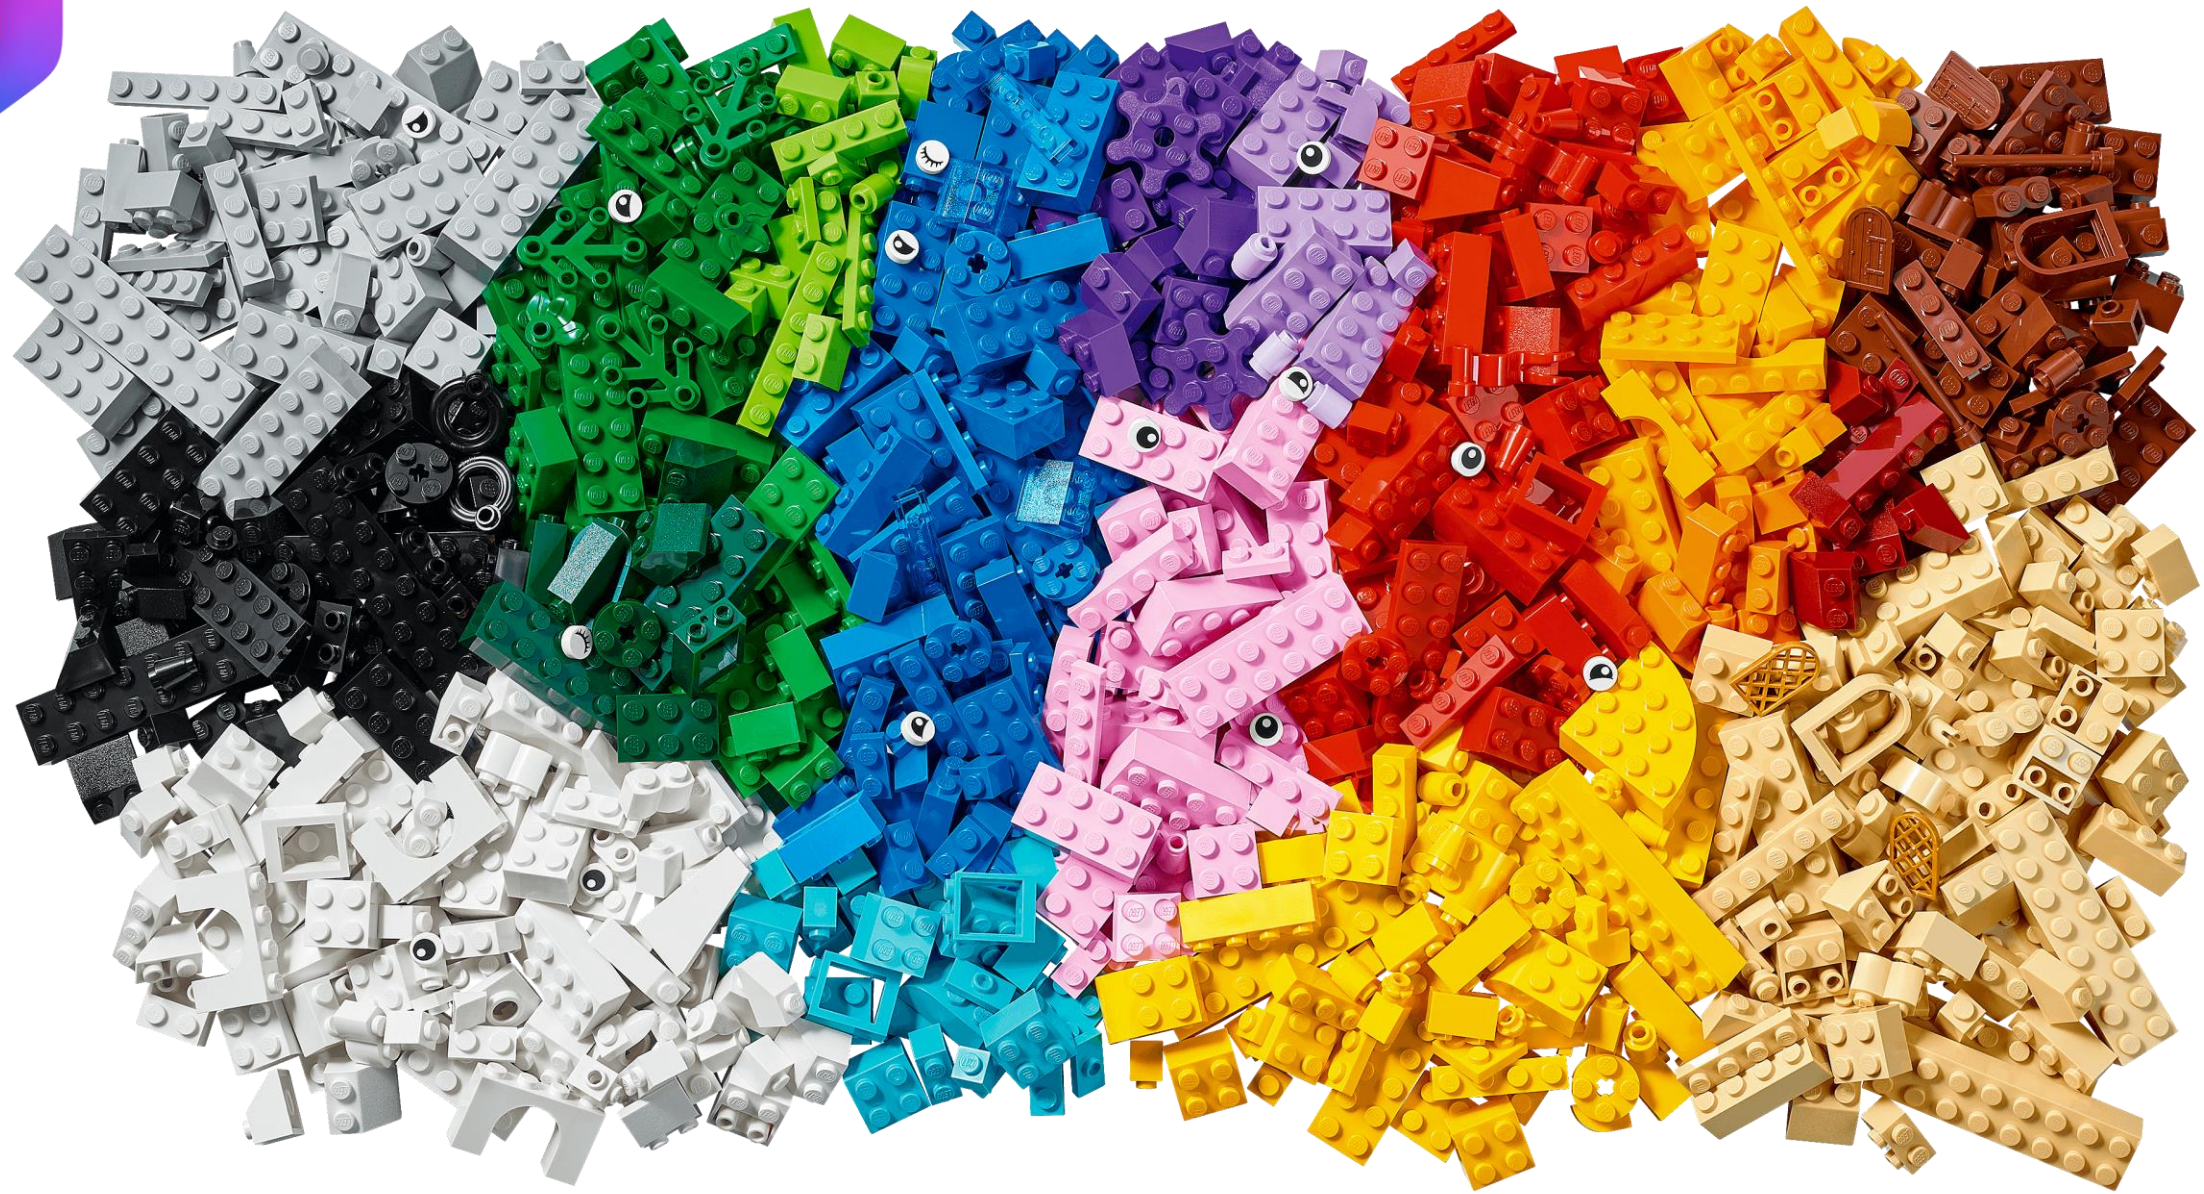

Build agents for key business processes using natural language and drag and drop with Copilot Studio, with the ability to expand with pro code and Azure AI Foundry

*Only available with Microsoft 365 Copilot

Agent Builder	Least Effort	Least Control
Microsoft Copilot Studio	Some Effort	More Control
Microsoft Foundry	Most Effort	Most Control

SYMBIOSIS ALERT!
¡ALERTA DE SIMBIOSIS!
In nature, everything is connected. As you walk through the exhibit you will notice that some sculptures display more than one living being— these interact together in different ways.
Relationships between species are called SYMBIOSIS.
Look out for the SYMBIOSIS ALERT panels to learn more about how different species rely on each other for survival!
