Turning Cybersecurity Into a Partner Profit Engine

TJ Turner
Solutions Architect | TD Synnex

Adversaries will use GenAI in creative ways

Legacy security tools aren't keeping up

Cyberthreats increased 10X* in the last year

Growing sophistication and velocity of threats, with ransomware encounters increasing by 2.75X

Siloed technology

With organizations using up to 70 security tools, it's increasingly difficult to stay protected and focused on what matters

Trading off costs and coverage

SIEM non-native to the cloud are complex to maintain and scale, and even cloud offerings can have limited flexibility for data management

Nearly 2/3 of security professionals report burn out**

Eliminate redundant solutions with Microsoft 365 E3

- Cut licensing costs by 60% or more compared to a patchwork approach of dedicated solutions
- Cut deployment, integration, management and related costs that come with a patchwork approach of dedicated solutions
- Reduce wasted time and effort, investing in a solution designed for more seamless integration

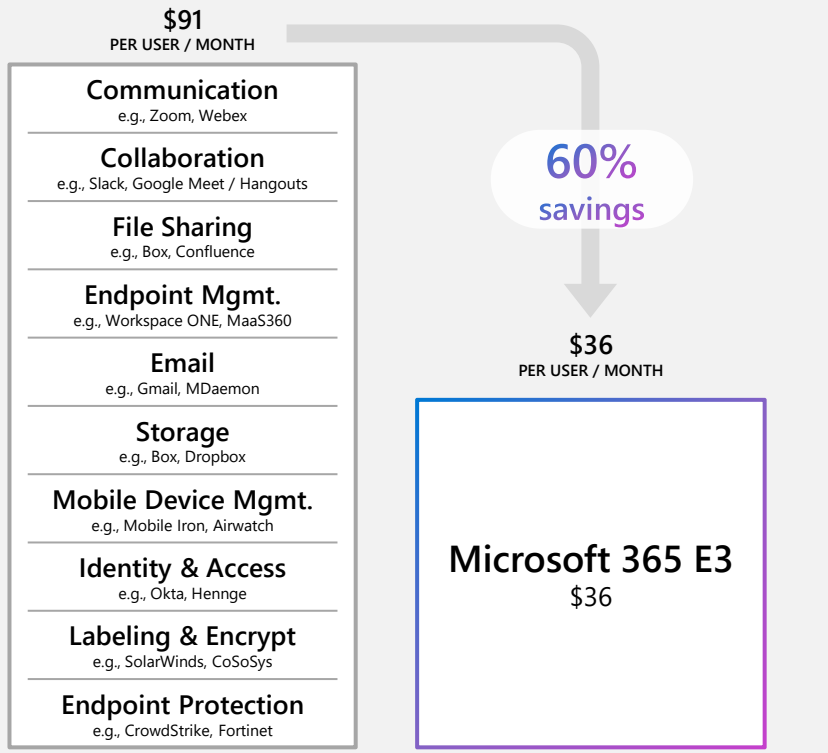

Reduce operation costs

Reduction in the likelihood of a data breach through conditional access, detailed and integrated security logs, and MFA	35%
Cut spending on employee devices with BYOD models through Intune	23%
Cut time deploying, managing new software through Microsoft Entra ID and Microsoft Intune	25%
Cut endpoint configuration times through Windows Autopilot's low-touch capabilities	75%
Cut help desk tickets and resolution time through self service password reset	15%
Cut costs on travel and expenses through virtual meetings	25%
Improvement of the end user productivity though Microsoft 365 collaborative apps	60h

Savings of $18.35 / user / month

+

Reduce license costs

Savings of $55 / user / month

Source. Forrester Consulting, The Total Economic Impact™ of Microsoft 365 E3, commissioned by Microsoft, October 2022. Results based on a composite organization made up of 15 organizations as stated in the linked study. - https://aka.ms/Microsoft365/E3/TEI

Azure as a strategic platform for transformation

Developer Tools

Apps and Agents

Enterprise-grade, intelligent AI Apps and Agents that understands user context, take actions and transforms customer and business processes

AI Platform

Future-proof: Comprehensive and open platform, model diverse
Secure: Responsible AI guardrails, manage AI content safety, observability

Data

Complete data platform to Unify the data estate
No lock-in: Open Models, supports any engine (Databricks, Fabric, Snowflake)

Infrastructure

Enterprise-grade cloud: Sovereign, secure, with data residency and resilient infrastructure—built to scale with top performance and cost efficiency.

Speaker **Responsibilities**

Presentation slides are due by INSERT DATE
the date of our virtual table read.

This template is your guide:

Don't move the headline or the preset content blocks, and make sure spacing is effective.

Less is more:

Each slide should contain just your high points. Deliver the extra details through your words on stage.

Tell a story:

Start with a challenge. Then provide a solution. And add a little personality along the way.

Practice makes perfect:

So, **don't miss your rehearsal time.** More details and a Teams invite will be sent to you.
